Reconfiguring knowledge production: Changing authority

Its basic assumptions are (i) that all changes in public science systems (PSS) affect authority relations "the interests and action capabilities of authoritative agencies in science" and (ii) that the authority relations concerning the selection of goals and approaches in research as well as the integration of research results are the channel through which changes in PSS affect the production of scientific knowledge and particularly scientific innovation.

Reconfiguring Knowledge Production: Changing Authority Relationships in the Sciences and Their Consequences for Intellectual Innovation. Connecting with Science Education (2nd edition) Pavlov's Dogs and Schrodinger's Cat: Scenes from the Living Laboratory. Note.

Reconfiguring Knowledge Production: Changing Authority

Get this from a library! Reconfiguring knowledge production : changing authority relationships in the sciences and their consequences for intellectual innovation. [Richard Whitley; Jochen Gläser; Lars Engwall;] -- Governance of the public sciences has changed since World War II, especially the funding structures, autonomy, and accountability of public research organizations, and the extent to ...

Reconfiguring knowledge production : changing authority

Much recent research has focused on how intensified competition for resources and increasing demands for

relevance and accountability have affected patterns of authority relations between academics and various stakeholders (the State, companies, research councils, etc ...

Engwall (ed) Reconfiguring Knowledge Production: Changing

By demonstrating that changes in authority relations are field-specific and have field-specific effects on knowledge production, and that these field-specific authority relations do indeed affect the conditions for intellectual innovation, the perspective explored in this book challenges science policy studies to 'bring work back in' to the study of the organisation and governance of the sciences.

Reconfiguring Knowledge Production, Richard Whitley

Reconfiguring Knowledge Production Changing Authority Relationships in the Sciences and their Consequences for Intellectual Innovation Edited by Richard Whitley, Jochen Glaser, and Lars Engwall. An organizational and comparative perspective on recent changes in public science funding, autonomy, and accountability ...

Changing authority relations within French academic research units since the 1960s: from patronage to partnership in . R. Whitley, J. Glaser and L. Engwall (ed) Reconfiguring Knowledge Production: Changing Authority Relations in the Sciences and Their Consequences for Intellectual Innovation Oxford, Oxford University Press: 184-210.

LOUVEL, S. 2010. "Changing authority relations within

For some time now, studies of the system of publicly funded scientific research have reported changes in several dimensions, such as its overall size, the main features of projects in various disciplines, the influences on research agendas, the roles of universities, government agencies, funding organizations and private companies, and a shift towards an altogether new mode of knowledge production, among other things.
