mon type of VSAT network, the "Star" type architecture, as a giant frame relay network in the sky. This type of VSAT network also manifests that same type of cost savings over a dedicated circuit like a T1. When a user purchases a traditional circuit, they pay for the full bandwidth, whether they use it or not.

operation, VSAT networks topologies, and control and monitoring functions. It is emphasized that VSATs, while in motion (e.g. on board vessel, on land vehicle and on board aircraft), are not encompassed by this Report.

### **Use of very small aperture terminals (VSATs) - TT**

The term Very Small Aperture Terminal (VSAT) refers to a small fixed earth station. VSATs provide the important communication link to set up a satellite based communication network. VSATs can be used for voice, data, or video transmission and reception. The VSAT comprises of two modules viz. an outdoor unit and an indoor unit.
