Psychometric Assessment Norms & Comparison Groups. Psychometric assessments are "normed" against comparison groups. Rather than looking at individual items, we look at the total score for an individual on a scale or test and then compare this to others.. The reason for this is that a psychological test score of 20 correct out of 40 is meaningless unless you know how others at a similar ...

In a world where most advisory firms are relatively small businesses, having a formal business plan is a remarkably rare occurrence. For most advisors, they can “keep track” of the business in their head, making the process of creating a formal business plan on paper to seem unnecessary. Yet the ...
