Search the world's information, including webpages, images, videos and more. Google has many special features to help you find exactly what you're looking for.

## **Google**

Michael D. writes... A source fed optically into a playbar or analog into a Connect is in sync across multiple zones. According to Sonos there is a 70ms propagation delay, however since the playbar uses the distribution system and doesn't play directly from the input the delay is equal for all speakers.
