Understanding your router is merely the first step in the process, but it's an important one. In the next few lessons, we'll be talking about some of the software and firmware features of your router (like the aforementioned DHCP reservations and Quality of Service) and how they can make your network as fast and reliable as possible.

complete the specific repairs according to the estimates. Some defects, such as structural problems and termite infestation have historically been the seller's responsibility. You can also offer to fix the defects yourself in turn for a lower purchase price on the contract. Finally, you can offer to share in the cost of repairs with the seller.
